**C D Ami**  
I hurt myself today  
**C D Ami**  
To see if I still feel  
**C D Ami**  
I focus on the pain  
**C D Ami**  
The only thing that's real  
**C D Ami**  
The needle tears a hole  
**C D Ami**  
The old familiar sting  
**C D Ami**  
Try to kill it all away  
**C D G**  
But I remember everything

**Ami F C**  
R. What have I become  
**G**  
My sweetest friend  
**Ami F C**  
Everyone I know goes away  
**G**  
In the end  
**Ami F**  
And you could have it all  
**G**  
My empire of dirt  
**Ami F**  
I will let you down  
**G**  
I will make you hurt

**C D Ami**  
I wear this crown of thorns  
**C D Ami**  
Upon my liar's chair  
**C D Ami**  
Full of broken thoughts  
**C D Ami**  
I cannot repair  
**C D Ami**  
Beneath the stains of time  
**C D Ami**  
The feelings disappear  
**C D Ami**  
You are someone else  
**C D G**  
I am still right here

**Ami**                    **F**    **C**  
R. What have I become  
                                 **G**  
My sweetest friend  
**Ami**                    **F**                    **C**  
Everyone I know goes away  
                                 **G**  
In the end  
                 **Ami**                                    **F**  
And you could have it all  
**G**  
My empire of dirt  
**Ami**                    **F**  
I will let you down  
**G**  
I will make you hurt  
                 **Ami**                                    **F**  
If I could start again  
                                 **G**  
A million miles away  
**Ami**                    **F**  
I would keep myself  
**G**                    **(Ami)**  
I would find a way
